

Manhattanville in West Harlem Campus Plan

Construction Activities for the Next Two Weeks

Columbia's long-term plan for the old Manhattanville manufacturing area will revitalize the four former industrial blocks from 125th/129th to 133rd Street between Broadway and 12th Avenue, and three small blocks along the east side of Broadway from 131st to 134th Street, into an environmentally sustainable and publicly accessible center for academic and civic life woven into the fabric of the West Harlem community.

Construction Activities for the Weeks of March 14, 2022 and March 21, 2022

600 W. 125th Street

Current Phase of Construction: Excavation and Foundation:

- Noisy work should be expected during most days during this phase of construction
- Excavation and foundation is anticipated to be complete by the end of the second quarter of 2022

What is Happening During the Next Two Weeks:

- Overnight utilities work will begin on W. 125th Street on Thursday, March 10 from 10:00 p.m. to 6:00 a.m. This work is anticipated to be complete at the end of March.
- Pile trimming
- Dewatering system setup and dewatering will be forthcoming
- Cap beam installation
- Tentative mobilization for Tangent Pile operation at ejector pits

-Please note that all activities are subject to change based on weather and other field conditions-

What to Expect

- Regular working hours are 7:00 a.m. to 6:00 p.m. Monday to Friday, with hours adjusted within that window depending on the construction activity. After-hours work will be performed between 10:00 p.m. to 6:00 a.m., and may occur on weekends from 9:00 a.m. to 5:00 p.m. in accordance with all necessary permits from the New York City Department of Buildings. Note that contractors may mobilize on site approximately 30 to 45 minutes before work commences.
- Although contractors carefully stage construction activities to minimize disruption to the surrounding community, the nature of construction work is such that some disruptions will occur. Expect some noise, vibration, dust, and other related impacts due to construction.
