Dear [Redacted];

Thank you so much for your help in securing access to Columbia University's libraries, computing facilities, and other academic support facilities and services available to upper level students at Columbia Secondary School for Math, Science, and Engineering. This access will benefit our students and staff by exposing them to high-quality research databases and computing facilities on Columbia's Morningside campus.

As we have discussed, our students who are currently taking courses at Columbia University shall continue utilizing the facilities and services that are made available to them. However, our students who are not currently taking classes on Columbia's Morningside campus shall not be granted access to your facilities. Students who aren't taking courses will continue to use the online resources made available to them.

We would like to thank you once again for your full support and the support of your staff. We appreciate the collaboration between Columbia Secondary School and Columbia University and look forward to our continued partnership.

Sincerely,

  
Miriam Nightengale  
Principal
