Annual Report: Graduate Scholarships for Elementary School Teachers

State Submission Annual Reporting Period: **October 2015 - September 2016**

Academic Year	Name of Recipient	Program	Entrance Date	Total Credits Awarded	Credits Used to Date	Total Credits Completed	Completion Date
2013-2014	██████████	Public School Administration	July 2013	36	36	36	August 2014
2014-2015*							
2015-2016	██████████	Curriculum and Teaching	September 2015	18	10	<i>In Process</i>	Anticipated: May 2017
2016-2017	██████████	Health Education	September 2016	36	0	<i>In Process</i>	Anticipated: May 2018

No more than three scholarships can be in force at any given time with a cumulative maximum of 18 credits per school year. The cumulative maximum of 18 credits per school year makes it likely that only one scholarship will be awarded annually due to the Master's Degree Program credit requirements.

*Academic Year 2014-2015

The recruitment process was being refined during Academic Year 2014-2015, and continues to be modified going forward. It is anticipated that depending on the program selected by the scholarship recipient and requirements of the specific program selected, there could be a need to adjust the recruitment process annually to meet the obligation. In the case of ██████████, she accelerated her participation and was able to utilize 36 (two years' worth) credits in a little less than 18 months. As a result, no new scholarship was awarded in school year 2014-2015.

██████████ currently continues to serve with the Columbia Secondary School of Math, Science and Engineering.

Dear Mr. Coatsworth,

Thank you for the opportunity to continue my educational development. I accept the scholarship offered for a Masters in Health Education.

I anticipate enrolling in 15-18 credits for the next two years, which would allow me to complete my program in May 2018.
