Program Information

The Community Scholars Program at Columbia University is designed to offer independent, community-based scholars from Northern Manhattan access to a suite of Columbia University services and resources that allow them to work toward the completion of a particular project or to attain skill in a particular area.

The program, part of Columbia University's community benefits and services related to the Manhattanville Campus Expansion, resulted from discussions with the West Harlem community.

Objective: The Columbia Community Scholars Program was developed to enable independent scholars to pursue their lifelong learning aspirations, whether it be completing an independent project or attaining skills in a particular area. The program allows Scholars a formal opportunity to access University resources and participate in the intellectual life of the University through interaction with faculty, students, and other visiting scholars. Participation in the Columbia Community Scholars Program is not intended to enable a Scholar to enter into a degree program; no course credit, certificate or diploma is awarded upon completion.

Program Duration: 3 years

Community Scholars are expected to work toward the completion of a proposed project or to attain a skill in a particular area during their 3-year tenure. The scope of each Scholar's project is delineated at the beginning of the program. Over the course of the three years, Community Scholars will have the opportunity to share their progress with members of the University and neighboring community.

The first two cohorts of independent scholars were selected through a competitive application process. Candidates who are selected from the current field of applicants will be welcomed to campus in the fall of 2016

The Community Scholars Program offers independent, community-based scholars from Northern Manhattan access to a suite of Columbia University services and resources in order to work toward the completion of a particular project or to attain skill in a particular area. The program originated as one of the benefits and amenities to be provided to the local community as part of Columbia's Manhattanville Campus Expansion. It also helps foster and deepen ties between the University and the many independent members of the cultural and intellectual community surrounding it.

The services include access to all the university's libraries (including on-line access), course auditing privileges (in departments offering auditable courses), interaction with scholars in their field of study, and the ability to participate in seminars and social events. A Scholar may wish to avail him or herself of all or some of the services offered; he or she may begin the program simply wishing to access the libraries, and later into the program opt to audit one or two classes.
