

**Manhattanville in West Harlem Implementation Plan Report  
October 15, 2021 Submission**

**Declaration Reference and Key Data**

Obligation Section Number: **5.07(c)(vi)**

Obligation Title: **Undergraduate Scholarships for Aid-Eligible Students from the Local Community**

Obligation Page Number: **53**

Obligation Trigger: **PACB Approval**

Obligation Start Date: **May 20, 2009 (PACB Approval date)**

Obligation End Date: **May 20, 2035\* (25 Years from Commencement)**

Obligation Status: **In Compliance**

**Obligation**

*Undergraduate Scholarships for Aid-Eligible Students from the Local Community.* In an effort to encourage students to attend Columbia College and the Fu School of Engineering and Applied Science, CU shall undertake a targeted recruitment effort for qualified students from the local community. Commencing on May 20, 2009, CU shall establish a scholarship fund to serve up to 40 aid-eligible undergraduate students per year who are admitted to Columbia College and the Fu School of Engineering and Applied Science from Harlem, with funding made available to meet their fully demonstrated financial need until 2033 or for a period of 25 years from commencement, whichever is longer.

\*Undergraduate scholarships were made available with the start of the 2010-2011 academic year, one year after the trigger date. Therefore, this obligation will be in effect until the 2034-2035 academic year, 25 years from the commencement of the obligation implementation.

Note: In Spring 2014, the financial support for local students was officially named the Thompson-Muñoz scholarship award, named after two local Columbia graduates.

**Evidence of Compliance**

1. Annual report reflecting prior Academic year awards

Columbia University's Implementation Plan and all supporting documentation are made available on the Columbia Neighbors Webpage at <https://neighbors.columbia.edu/content/community-commitments>.

**Columbia Summer Programs College Fair** - Every summer Columbia University hosts one of the largest summer college fairs in the country attracting over 100 colleges from across the country. The college fair consists of workshops for local parents and students, including tips for performing your college search and navigating the college fair, a workshop on financial aid, and a workshop on the college application process.

Due to ongoing COVID-19 restrictions, the Summer Programs College Fair originally planned for 2021 was shifted to a Virtual College Access Day that was held on July 28, 2021. This virtual event gave attendees the opportunity to hear from Columbia admissions officers, current students and administrators about the distinctive Columbia experience.

This program included:

- a session detailing how to navigate the college process in a hybrid world
- an inside look at the admissions process and the opportunity to meet with admissions officers
- a workshop on how to showcase student voices in the college admissions essay and supplemental questions
- an overview of how to apply for financial aid
- an optional virtual college access tour highlighting academic resources and support programs at Columbia

### **Additional Supporting Documentation**

# Scholarships for Local Students Honor Two Distinguished Alumni

Albert Thompson and Carlos Muñoz lived on the same block of West 116th Street and knew each other at Columbia College, overlapping for one year. Now their names jointly grace a new Columbia initiative for future generations of local students.

The initiative, named last spring in their honor, identifies some 40 promising undergraduates in West Harlem, Washington Heights, Inwood and the South Bronx. The students, who are welcomed into the program when they receive their acceptance letters from Columbia, have the opportunity to attend special events where they meet alumni and community leaders.

The program is one of many scholarship and grant programs the University administers to ensure economic diversity on campus, joining other initiatives such as the Dyckman Institute Scholarships for outstanding students from Washington Heights and Inwood. Financial aid workshops are held in the local community to publicize these and other efforts.

Carlos Muñoz and Albert Thompson

"Columbia is defined by the city we call home and by our historic commitment to providing educational opportunity to a remarkable diversity of young people, regardless of their family's income," said Columbia President [Lee C. Bollinger](#). "We reach out to attract talented students all across the nation who are the first member of their family to attend college, but nowhere more so than our own New York community. We are proud to add the Thompson-Muñoz Scholars to this effort that's so central to our mission."

[Columbia College](#) and [The Fu Foundation School of Engineering and Applied Science](#) both participate in the program. Nearly half of the students at the College and School of Engineering receive financial aid, and 16 percent of the first-year students are the first in their family to attend college.

[James J. Valentini](#), dean of Columbia College and vice president for undergraduate education, said, "Our goal with this program, as with financial aid in general, is to admit students based on their ability to contribute to and benefit from our community, not on their ability to pay for the experience."

Columbia provides need-blind admissions for U.S. citizens and permanent residents, meeting 100 percent of demonstrated financial need for all four years of study. Students on financial aid receive on average more than \$42,000 annually.

## MULTIMEDIA

**Brown Institute for Media Innovation Grand Opening**

## MILESTONES

Five Columbia faculty members have been inducted into the National Academy of Sciences' Institute of Medicine. They are [James J. Cimino](#), adjunct professor in the Department of Biomedical Informatics; [Quarraisha Abdool Karim](#), associate professor of epidemiology; [Gerard Karsenty](#), Paul A. Marks Professor of Genetics & Development; [Michael Shadlen](#), professor of neuroscience; and [Gordana Vunjak-Novakovic](#), Mikati Foundation Professor of Biomedical Engineering.

[Herb Gans](#), the Robert S. Lynd Professor Emeritus of Sociology and special lecturer in sociology, was awarded the 2014 William Foote Whyte Career Achievement Award for sociological practice and public sociology

TheRecord

Jessica Marinaccio, dean of undergraduate admissions and financial aid, said socioeconomic diversity is essential for building a representative student body. "Affordability and access are major themes in our outreach to prospective and admitted students," she said.

One of the Thompson-Muñoz scholars is Jean-Franco Diaz (CC'16), who grew up in the Dominican community in Washington Heights. Diaz, who intends to major in economics and political science, said, "Attending Columbia has given me a global perspective." Janay Anderson (CC'17), who grew up 20 blocks from Columbia and plans to major in the Medicine, Literature and Society track, said the University has prepared her to help her community.

Manhattan Borough President Gale A. Brewer (GS'97), speaking at a reception in October for the Thompson-Muñoz scholars, praised Columbia's educational outreach programs, singling out the [Double Discovery Center](#), which offers tutoring, standardized test-prep and Saturday enrichment classes. "These students go on to do great things in the world." Indeed, columnist Frank Bruni recently profiled the benefits of a full-time summer session held on campus for college-bound local students in [The New York Times](#).

Peter Johnson, director of Enrollment Group Special Projects and special assistant to the dean of undergraduate admissions and financial aid, applauded the students for their intellectual curiosity, initiative and hard work. "It is not a privilege to attend Columbia," he told the students. "But it is an honor. Privileges are bestowed on us, honors you earn." Roosevelt Montas (CC'95), associate dean and director of the [Center for the Core Curriculum](#), told them, "Your presence enriches all of our experiences."

Thompson (CC'54), a Columbia shot put record-holder who continued his track and field career in the Naval Reserves, graduated from both Columbia College and the College of Dental Medicine, where he is now an assistant clinical professor.

Muñoz (CC'57, MA'61) likewise earned a pair of degrees from the University, graduating from the College before getting a master's degree in economics. He climbed to executive vice president for credit and risk management at Dime Savings Bank of New York. A former president of the Columbia College Alumni Association and member of the College's Board of Visitors, Muñoz has long donated his time to his alma mater. He said the initiative made him proud of his Columbia heritage and had this advice for students: "Keep your minds open to all areas of opinion and take advantage of the trove of knowledge available at the University."

Thompson told the students that while they deserved to be commended for getting into Columbia, they didn't do it alone. "Your parents deserve credit for providing an environment for you to succeed," he said. And going forward, he said later, they will have to help each other. "The biggest asset that all of these students have is one another."

# Communication

The following emails are copies of invitations sent to students and counselors as part of our outreach efforts.

**Sent September 2, 2020**

Hello from Columbia!

I hope this email finds you well.

With the school year beginning for so many around the world right now, I wanted to say hello and confirm that I will be serving as your region's admissions officer for the 2020-21 application cycle. So much is unfolding at a rapid pace as Columbia's fall semester approaches, and I'm sure these changes will bring about many questions from counselors, students and families alike. We understand many aspects of your school year might be shifting as well. Please know I am here to serve as a resource and can be reached at ns3224@columbia.edu.

As your students are exploring colleges, I offer the following resources for any students and families looking to learn more about Columbia.

[Virtually Engage with Columbia](#)  
[Revised 2020-2021 Testing Policy](#)  
[Columbia and Affordability](#)

Please feel free to reach out if you have any questions or would like to connect. Thank you so much for all you do in these trying times.

Sending my best to you and your students,  
Nkima

[Virtual Visit](#)

[Apply](#)

Dear Colleague,

With the fall semester ramping up, we wanted to connect with our community partners about virtually welcoming you to campus. We want to reaffirm that we will continue to support you and your students in navigating an unexpected landscape this admission cycle, and hope to engage with your organization virtually. Some of our current Columbians are ready and waiting to discuss their own application process and Columbia experience with your students through our College Access Student Sessions.

## What exactly are College Access Student Sessions?

College Access Student Sessions are designed to educate prospective students on college access broadly, as well as to discuss the Columbia student experience. Sessions will discuss each Columbia student's path to college, the resources they used, their reflections on the application process, and their Columbia experience. These sessions are led by current student leaders within Undergraduate Admissions, and will also highlight transitional resources for prospective students. College Access Student Sessions are designed for non-profit, public, and charter organizations with groups larger than 10 students.

COLUMBIA  
UNDERGRADUATE ADMISSIONS

Dear Colleague,

Columbia University's commitment to making our education accessible and affordable is longstanding, and we are proud to partner with you in your effort to support students from a wide variety of backgrounds, including those with limited financial resources. For decades, the University has supported high-achieving, low-income students in Columbia College and Columbia Engineering through the **New York State Arthur O. Eve Higher Educational Opportunity Program (HEOP)** and our own **National Opportunity Program (NOP)**.

Competitive candidates for HEOP/NOP excel academically, actively participate in their community, demonstrate intellectual curiosity and show that they will especially benefit from additional support services. HEOP students must also meet financial guidelines set by New York State. We find that the strongest HEOP/NOP applicants can articulate

their fit for the distinctive Columbia experience, which includes the fundamental Core Curriculum, a both traditionally collegiate and unmistakably urban campus life, and a place where curious thinkers come to grow. We work closely with [Columbia's Academic Success Programs](#) to provide a holistic approach to student development which includes:

- **Financial Aid:** Though most HEOP/NOP students graduate in four years, they are eligible for up to five years of full need-based financial aid for tuition, room and meals. Our need-based aid is in the form of grants; loans are not used to meet financial need. A textbook stipend is awarded to students every semester until graduation.
- **Summer Bridge Program:** HEOP/NOP students participate in a required five-week academic program that prepares participants for college-level courses in the areas of critical reading and analysis, formal writing, laboratory science and mathematics. Students engage evenings and weekends in team-building exercises to foster personal development and a sense of community.
- **Advising and Tutoring:** Columbia's Berick Center for Student Advising assigns all students individual advisers who work with them closely throughout their time at Columbia to set and reach their academic goals. Students also have access to staff across the university, including the Center for Undergraduate Global Engagement, the Center for Career Education and faculty advisers in academic departments. Additionally, HEOP/NOP students are assigned peer mentors, who provide both individualized and group tutoring services and counseling on topics such as career exploration and financial independence. Many HEOP/NOP students also participate in the Center for Student Advising's First in Family programs, a set of workshops, support and mentoring open to all Columbia students who are first-generation college students.

There is no separate application for consideration for either program. We accept both HEOP and NOP students in Early Decision as well as Regular Decision. If you work with a student you think is a strong fit and who may be financially eligible for HEOP at Columbia, or if you have additional questions about our HEOP and NOP programs, please email [ugrad-asp@columbia.edu](mailto:ugrad-asp@columbia.edu). Stay tuned for an invitation to our educator webinar session discussing HEOP and NOP at Columbia with current admissions officers in mid-November.

I hope you find this information useful as we work together to help students pursue their educational goals.

Best,

Jessica Marinaccio  
Dean of Undergraduate Admissions and Financial Aid

COLUMBIA  
UNDERGRADUATE ADMISSIONS

Dear Colleague,

In a typical year, admissions officers would have been on the road greeting you in person and getting to know your students at college fairs and high school visits. We know 2020 is far from a typical year, and we want to do our part to support you and your students through the college application process.

Please review our [2020-2021 staff directory and regional assignments](#), which also includes admissions statistics for our Class of 2024. Additionally, below are important aspects of our process that we want to highlight:

- Due to widespread disruptions in access to standardized testing, Columbia will be [test-optional](#) for the 2020-2021 application cycle.
- We have expanded the criteria for how students may receive application fee waivers. Students can determine if they qualify by using our new [fee waiver eligibility form](#).
- We can extend application [deadline flexibility](#) to students who are experiencing challenges meeting our application deadlines. We will also accept supporting documentation from counselors and teachers after the application deadline without the need for to request an extension.
- We encourage students to participate in our [live virtual programming](#) to get an introduction to Columbia and determine if our community could be a good fit for them.

Thanks for all you do to support your students in these challenging times. Please don't hesitate to reach out to your regional officer if we can be of any assistance in your work.

Best Wishes,

Jessica Marinaccio

[Virtual Visit](#)

[Apply](#)

Dear Colleague,

I am writing to share an important update for students considering applying to Columbia in 2021-2022.

In response to continued disruptions to standardized testing availability due to the COVID-19 pandemic, Columbia is extending our test-optional policy for one year, effective for first-year applicants to Columbia College or Columbia Engineering for entrance in the fall of 2022.

ACT and SAT test results will not be a required component for the first-year 2021-2022 application cycle, and students who are unable or choose not to submit test scores will not be at a disadvantage. We will continue to evaluate all submitted information within the holistic and contextual review process that considers individual circumstances shaping each applicant's journey. The rigor of a student's curriculum, their academic achievement, and their demonstrated intellectual curiosity will remain central to our review.

Please [review the story](#) we recently posted on our website for more detailed information on this new policy.

We remain grateful for your partnership.

Warmly,

Jessica Marinaccio  
Dean of Undergraduate Admissions and Financial Aid

Sent April 15, 2021

Dear Colleague,

You are receiving this message because {{First}} {{Last}} included your information in the community-based organization section of their application. On behalf of Undergraduate Admissions at Columbia University, I would like to thank you for supporting {{First}} through the college admissions process. I am pleased to inform you that {{First}} has been admitted to Columbia University. We recognize that educators from community-based organizations and programs like yours play a special role in supporting students as they apply to college, and we want to thank you for recommending that {{First}} apply to Columbia, especially in this challenging year.

Students admitted to the Class of 2025 were selected not only for their achievements but also the unique voice and contributions we are confident they will bring to Columbia's diverse and dynamic community.

At Columbia, {{First}} will be able to fully engage in and benefit from the bountiful opportunities offered to all Columbia undergraduates. Below are some highlights:

- Columbia's [Core Curriculum](#), one of the oldest and most renowned programs of its kind in the country, unites all undergraduate students in a series of small classes taken alongside coursework in their selected majors and electives.
- Columbia's [Berick Center for Student Advising](#) (CSA) pairs all students with an Advising Dean who will work with them closely to set and reach their academic goals. The CSA also runs our [First in Family](#) Programs, which provide support, community-building events and academic workshops for all first-generation college students.
- [Multicultural Affairs](#) oversees the [Columbia Mentoring Initiative](#), an intergenerational mentorship program that connects first-year students with returning students and alumni. Mentors emphasize emotional health, academic success, belonging, community consciousness and identity and leadership development.
- Through the [Center for Undergraduate Global Engagement](#) and the [Center for Career Education](#) students have access to thousands of experiential opportunities throughout New York City and around the world.
- Columbia University and [Financial Aid and Educational Financing](#) are committed to meeting 100% of the demonstrated financial need for all students admitted as first-year students. Loans are not a component of Columbia financial aid packages.

- FLI @ Columbia, the first generation and/or low-income student community, created the [FLI Resource Guide](#). The guide provides a comprehensive of resources available as well as tips for how to best use those resources.

We have a full slate of virtual programs available, and students should regularly check the email they used to apply to Columbia as well as the Lions' Den website. We will continue to keep our counseling colleagues updated in these uncertain times and invite you to use our online [Counselor Updates](#) as a resource.

There is no financial deposit required for students to confirm their place in the class. To secure a place in Columbia's Class of 2025, your student will simply need to submit their enrollment form. When they submit their form, they must also confirm that they have declined all other offers of admission and are only holding a place at Columbia.

If you have additional questions about undergraduate admissions or student life at Columbia, please contact Molly Coyne, Senior Assistant Director, at [mcc2238@columbia.edu](mailto:mcc2238@columbia.edu).

We look forward to the many wonderful contributions that {{First}} will make here as a member of the Class of 2025. We look forward to working with you in the future, and hope that you continue to identify and recommend students who are a strong fit for Columbia.

Best,

Jessica Marinaccio  
Dean of Undergraduate Admissions and Financial Aid

COLUMBIA  
UNDERGRADUATE ADMISSIONS

Dear Colleague,

On behalf of Columbia Engineering and Columbia Undergraduate Admissions, we are pleased to inform you and your students about the [Virtual Columbia Engineering Experience \(CE2\)](#). As a counselor and adviser, you are invited to share this opportunity with your organization's outstanding seniors (based on our recommendations below) who demonstrate a strong interest in engineering, science, math and technology. Your students may apply for this selective program via [our online application](#).

CE2 was created to encourage high-achieving high school seniors from historically underrepresented backgrounds to explore an engineering education at Columbia; it is our only selective virtual program, designed for high school seniors. This year CE2 is taking place October 9 - October 10, 2021.

Program Highlights Include:

- **World-class faculty and research:** Learn and ask questions with members of Columbia's renowned faculty.
- **Inside look at life as a Columbia student:** Work with an undergraduate student mentor, learn about campus life and hear from current students, including leaders from a variety of student organizations.
- **The NYC advantage:** Learn about the cultural, professional, research and intellectual resources at our doorstep including exclusive career and entrepreneurship opportunities.
- **Admissions 101:** Participate in comprehensive college admissions and financial aid workshops and office hours conducted by members of the Columbia Admissions Committee.

Due to the selectivity and limited size of the program, an application with a transcript is required. Students may self-report their transcripts.

CE2 is designed for high-achieving high school seniors who have:

- Exemplary academic records, particularly in math and science, including coursework in calculus, physics and chemistry
- Sincere interest in pursuing an engineering education
- Genuine appreciation for the educational value of diversity in all its forms - ethnic, geographic, religious, political, intellectual and so on

CE2 is designed to serve students from backgrounds that are historically underrepresented in engineering and applied science fields, including:

- Low-income students
- Underrepresented students of color
- Students who will be the first generation in their family to attend college
- Students from underserved and rural communities

Please direct your students to our website for the [online application](#) and instructions. The deadline to submit an application is **Thursday, September 9, 2021**. Students selected for the program will be notified on Monday, September 27, 2021.

Thank you for supporting your students as they consider applying for participation in CE2. Please do not hesitate to contact us if you should have any questions or if we can provide additional information.

Sincerely,

Veronica Aguilar Hornig  
Director of Engineering Recruitment

Maria Gracia Asayag

## Email Invitation to Virtual College Access Day

Columbia University in the City of New York

cordially invites you to attend our second annual

## Virtual College Access Day

Thursday, July 28, 2021

At Columbia, students are as diverse in their thinking as they are in their backgrounds. Our university is intellectually vibrant in a place where both tradition and innovation thrive. Our Virtual College Access Day gives you the unique opportunity to hear from Columbia admissions officers, current students and administrators about the distinctive Columbia experience. Our goal is to provide the tools necessary to plan your college search.

This program includes:

- a session detailing how to navigate the college process in a virtual world
- breakout sessions detailing academic resources and support programs
- an inside look at the admissions process and the opportunity to meet with admissions officers
- a panel of current students and administrators highlighting the dynamic energy of our community

- an optional virtual tour of campus

**Kindly RSVP, as space is limited.**

More information about the program can be found on the event [registration page](#).

We look forward to seeing you and your family virtually this July!

# Letters to Admitted Thompson Munoz Students

## Columbia College

From: Columbia Undergraduate Admissions <[ugrad-welcome@columbia.edu](mailto:ugrad-welcome@columbia.edu)>

Subject: Columbia University Scholar Notification

Dear {{First}},,

I am happy to inform you that you have been named a Thompson-Muñoz Scholar in Columbia College's Class of 2025. You have already shown by your remarkable high school record that you are among the best and brightest students in the world. This honor, given to exceptionally talented students from the Columbia neighborhood and surrounding communities, will provide you with unique opportunities to meet local leaders and important alumni while at Columbia and will follow you as an honor designation to graduation and beyond.

Thompson-Muñoz Scholars are named in recognition of two notable Columbia alumni who were both born and raised in Harlem, Albert Thompson and Carlos Muñoz. Thompson, who graduated from Columbia in 1954, achieved shot put records here that have been unmatched for more than 60 years. After graduation, he served as a lieutenant in the Naval Reserves and attended the Columbia University College of Dental Medicine, where he is currently an assistant clinical professor. Muñoz, who graduated in 1957 and earned a master's degree in economics from Columbia in 1961, had an extensive career in the United States and abroad with many financial institutions before retiring as executive vice president for credit and risk management for Dime Bancorp and the Dime Savings Bank of New York. Both of these highly distinguished alumni are examples of what local students like you might accomplish with a Columbia education.

As a Thompson-Muñoz Scholar, you will have the opportunity to engage with other Thompson-Muñoz Scholars and attend our annual Dean's Scholarship Reception. We

hope this group will serve as a personal network for you while you are here, helping you to forge special connections at the University while meeting students from all over the world.

Congratulations on your admission. We are excited to have you as a member of Columbia's outstanding Class of 2025!

Yours sincerely,

Jessica Marinaccio

Dean of Undergraduate Admissions and Financial Aid

Subject: Columbia University Scholar Notification

Dear {{First}},

I am happy to inform you that you have been named a Thompson-Muñoz Scholar in Columbia Engineering's Class of 2025. You have already shown by your remarkable high school record that you are among the best and brightest students in the world. This honor, given to exceptionally talented students from the Columbia neighborhood and surrounding communities, will provide you with unique opportunities to meet local leaders and distinguished alumni while at Columbia and will follow you as an honor designation to graduation and beyond.

Thompson-Muñoz Scholars are named in recognition of two notable Columbia alumni who were both born and raised on the same street in Harlem, Albert Thompson and Carlos Muñoz. Thompson, who graduated from Columbia in 1954, achieved shot put records here that have been unmatched for more than 60 years. After graduation, he served as a lieutenant in the Naval Reserves and attended the Columbia University College of Dental Medicine, where he is currently an assistant clinical professor. Muñoz, who graduated in 1957 and earned a master's degree in economics from Columbia in 1961, had an extensive career in the United States and abroad with many financial institutions before retiring as executive vice president for credit and risk management for Dime Bancorp and the Dime Savings Bank of New York. Both of these accomplished alumni are examples of what students like you might achieve with a Columbia education.

As a Thompson-Muñoz Scholar, you will have the opportunity to engage with other Thompson-Muñoz Scholars and attend our annual Dean's Scholarship Reception. We hope this group will serve as a personal network for you while you are here, helping you to forge special connections at the University while meeting students from all over the world.

**Congratulations on your admission. We are excited to have you as a member of Columbia's outstanding Class of 2025!**

**Sincerely,**
