Declaration Reference and Key Data

Obligation Section Number: **5.07(c)(iii)**

Obligation Title: **Mobile Dental Center for Pre-School Children**

Obligation Page Number: **52**

Obligation Trigger: **Acquisition by ESD or CU of all Initial Stage 1 Condemnation Parcel(s)**

Obligation Start Date: **March 12, 2012**

Obligation End Date: **March 12, 2037 (25 Years from Commencement)**

Obligation Status: **In Compliance**

Obligation: Innovation/Changed Conditions

In accordance with the Declaration of Covenants and Restrictions Section 5.08, Obligation 5.07 (c)(iii) is modified to clarify the obligation. In general, the scope of services to be provided has not been changed. Empire State Development and Columbia University agreed to this modification on November 28, 2018.

Modified Language:
Mobile Dental Center for Pre-School Children. Commencing with the acquisition by ESD or CU of all Initial Stage 1 Condemnation Parcels, and continuing for a 25-year period commencement, CU shall extend its Mobile Dental Center to service pre-school children and seniors from the Manhattanville in West Harlem area. CU's College of Dental Medicine operates a mobile Dental Center. It is fully equipped with two dental operatories, x-ray equipment, waiting/oral health education area and handicapped accessible chairlift. The Mobile Dental Center is staffed with a dentist, pediatric resident, dental hygienist, dental assistant, and driver/data entry clerk. The Center currently travels to over 50 local Day Care and Head Start centers throughout northern Manhattan during the school year offering children ages 3-5 years comprehensive dental care. Parked adjacent to the host site two or more times per month, follow-up appointments are made every six months. Children requiring specialty services are referred to affiliated Community DentCare or Children's Aid Society dental clinics located throughout Washington Heights/Inwood and Harlem. CU's partnership with Alianza Dominicana facilitates enrollment into Medicaid or Child Health Plus for the uninsured.

Alternatives Based on Changed Conditions

While the Declaration states the Mobile Dental Center shall service pre-school children and seniors, dental services for seniors are now offered through the ElderSmile program as reflected in the next commitment under Section 5.07(c)(iv).

The services remain the same. The modification clarifies the program through which the services are provided. The Mobile Dental Center focuses on pre-school children. The ElderSmile Program focuses on seniors. Services continue to be provided within the catchment area defined in the commitment overview above. Visits to each host site by the Mobile Dental Center are scheduled in coordination with leadership of each host site. The frequency of visits is determined in collaboration with each site based on site availability and preference. Follow-up appointments are made in accordance with each individual patient's dental requirements and in coordination with each site.

Annual Report: Mobile Dental Center for Pre-School Children

State Submission Annual Reporting Period: **October 2021 - September 2022**

- Notifications Sent Beginning: **Various**
- Number of Patients Served: **212**

The Mobile Dental Center (MDC) paused operations on March 1, 2020 due to the COVID-19 pandemic. Service resumed in late 2021 in keeping with federal and New York State guidelines. Service was paused again from mid-December 2021 until February 2022 due to the omicron surge.

On November 12, 2021, Columbia University unveiled a new Mobile Dental Center to be operated by Columbia's College of Dental Medicine. The new mobile center is a modern, movable clinic and features two dental chairs, X-ray equipment, a reception and health education area, and a wheelchair lift. The new Mobile Dental Center replaces and improves upon the school's previous mobile clinic, now decommissioned.

I am aware and acknowledge that no guarantees, warranties or assurance of success have been made to me by Columbia University College of Dental Medicine / Columbia University Health Care, Inc. regarding treatment and the treatment results for any dental treatment.

APPOINTMENT POLICY and GUIDE to PATIENT SERVICES ACKNOWLEDGEMENT RECEIPT

We take great pride in the quality of care that we deliver. In effort to maintain this high-level of care, we have instituted appointment guidelines regarding cancellations/no-show/lateness. Compliance with this policy will allow patients to receive treatment in a timely and efficient manner, promoting optimal care and oral health.

1. Once appointments are scheduled, patients are expected to attend each and every session at the appointed time.

COLUMBIA | COLLEGE OF DENTAL MEDICINE

2. If you are going to be late for scheduled appointment, please call to let us know so that we may notify your doctor.

3. All cancellations must be communicated to the department 48 hours in advance or 72 hours in advance of a surgical and/or sedation procedure.

4. If you cancel or fail to show for three consecutive visits, you may be discharged from being provided care at the college.

5. If you fail to contact us in 2 weeks after being sent a "warning letter" you will be discharged from the College of Dental Medicine.

6. The College reserves the right not to reschedule patients who have been discharged for failing to show for prior scheduled appointments.

We appreciate your understanding and cooperation with this policy.

I have read, understand, and agree to abide by the aforementioned policy.

I acknowledge that I was provided with a copy of the College of Dental Medicine Guide to Patient Services.

AUTHORIZATION FOR RELEASE OF MEDICAL INFORMATION

I authorize Columbia University College of Dental Medicine/Columbia University Health Care, Inc. to release to government agencies, insurance carriers, or others who are financially liable for dental and medical care, all information needed to substantiate payment for such care, and allow others who are representatives thereof to examine and make copies of all records relating to my care and treatment.

CONSENTIMIENTO PARA EL TRATAMIENTO DENTAL GENERAL
Doy mi consentimiento para que Columbia University College of Dental Medicine/Columbia University Health Care, Inc. realice los procedimientos de diagnóstico y tratamiento que el miembro de la facultad que me atiende considere necesarios para mi cuidado. Además, entiendo que, cualquier y/o todos los cuidados clínicos (operaciones, procedimientos, técnicas e imágenes clínicas) serán proporcionados por estudiantes o residentes. A fin de mantener la más alta calidad del cuidado y mejorar las destrezas de los estudiantes y residentes, también acepto que los encuentros clínicos sean observados y posiblemente grabados por cámaras de video y que puedan ser revisados por el miembro de la facultad que me atiende con el proveedor residente o estudiante.

Entiendo que antes de cualquier atención clínica (operaciones, procedimientos, técnicas e imágenes clínicas), seré asesorado por un estudiante, residente o miembro de la facultad responsable de mi cuidado y que puedo hacer preguntas relacionadas con mi tratamiento. También entiendo que las complicaciones posteriores al tratamiento, incluyendo sangrado, dolor, hinchazón, pérdida de dientes y pérdida de implantes, pueden ser una consecuencia normal del tratamiento realizado. Entiendo además que puedo revocar este consentimiento antes de que se proporcione dicho tratamiento. Comprendo que este consentimiento permanecerá en vigor a menos que lo revoque por escrito.

Entiendo además que los costos proporcionados son estimados y se refieren únicamente a los procedimientos esenciales. Si algún tratamiento adicional no está incluido en los costos estimados en el plan de tratamiento propuesto en este momento, yo seré responsable financieramente de cualquier cargo que sea parte del tratamiento adicional.

Me comprometo a cumplir con todas las normas y reglamentos de Columbia University College of Dental Medicine/Columbia University Health Care, Inc.

Asigno y traspaso a Columbia University College of Dental Medicine/Columbia University Health Care, Inc. los fondos suficientes y/o beneficios a los que pueda tener derecho de parte de una agencia gubernamental, compañía de seguros u otros que sean responsables financieramente de mi atención dental o médica para cubrir los costos de la atención y el tratamiento que se me presten a mí o a mi dependiente. Entiendo que soy responsable de los cargos no cubiertos por mi plan de seguro.

Soy consciente y reconozco que Columbia University College of Dental Medicine / Columbia University Health Care, Inc. no me ha garantizado, prometido ni asegurado el éxito del tratamiento ni de los resultados de ningún tratamiento dental.

POLÍTICA DE CITAS y CONFIRMACIÓN del RECIBO de la GUÍA DE SERVICIOS AL PACIENTE

Nos enorgullece la calidad de la atención que ofrecemos. En un esfuerzo por mantener este alto nivel de atención, hemos instituido directrices para las citas en relación con las cancelaciones, el no presentarse y la impuntualidad. El cumplimiento de estas políticas permitirá que los pacientes reciban tratamiento de manera oportuna y eficiente, promoviendo el cuidado óptimo y la salud oral.

COLUMBIA | COLLEGE OF DENTAL MEDICINE

1. Una vez que se programan las citas, se espera que los pacientes asistan a todas y cada una de ellas a la hora indicada.

2. Si va a llegar tarde a la cita programada, por favor, llámenos para avisarnos y así nosotros podremos avisarle a su médico.

3. Se deben comunicar todas las cancelaciones al departamento con 48 horas de anticipación o 72 horas antes si se trata de un procedimiento quirúrgico y/o de sedación.

4. Si cancela o no se presenta a tres visitas consecutivas, se le podrá dejar de proporcionar atención en el College of Dental Medicine.

5. Si no se pone en contacto con nosotros dentro de las dos semanas después de haber recibido una "carta de advertencia", se le dará de baja del College of Dental Medicine.

6. El College of Dental Medicine se reserva el derecho de no volver a citar a los pacientes que han sido dados de baja por no presentarse a las citas programadas previamente.

Apreciamos su comprensión y cooperación con esta política.

He leído, entendido y estoy de acuerdo en cumplir con la política mencionada.

Confirmo que me han proporcionado una copia de la Guía de Servicios al Paciente de College of Dental Medicine.

AUTORIZACIÓN PARA LA DIVULGACIÓN DE INFORMACIÓN MÉDICA

Autorizo a Columbia University College of Dental Medicine/Columbia University Health Care, Inc. para que comparta con los organismos gubernamentales, compañías de seguros u otras personas que sean responsables financieramente de la atención dental y médica, toda la información necesaria para fundamentar el pago de dicha atención, y para que permita que otras personas que sean representantes de estas entidades examinen y hagan copias de todos los registros relacionados con mi atención y tratamiento.

Este consentimiento y autorización no caduca a menos que yo lo revoque por escrito o al terminar mi relación de tratamiento con Columbia University College of Dental Medicine/Columbia University Health Care, Inc.

Al firmar electrónicamente este formulario, declaro que lo he leído y comprendido, y que he tenido la oportunidad de hacer las preguntas que pudiera tener, y que todas mis preguntas han sido contestadas de manera satisfactoria.

Columbia Unveils New Mobile Clinic for Community Dental Care

November 12, 2021

Columbia's mobile dentistry program is back and ready to deliver health screenings and low-cost dental care to residents of Northern Manhattan and the Bronx.

On Nov. 12, officials and community leaders joined leaders from Columbia University at its Manhattanville campus in West Harlem to celebrate the debut of the new Mobile Dental Center operated by Columbia's College of Dental Medicine (CDM).

The new mobile center—a modern, movable clinic—will travel to Head Start centers, schools, senior centers, and other partner sites in CDM's Community DentCare Network. The clinic will primarily serve patients in Washington Heights, Harlem, Inwood, and the South Bronx, many of whom have limited access to health care.

On Nov. 12, officials and community leaders joined leaders from Columbia University to celebrate the debut of the new Mobile Dental Center operated by Columbia's College of Dental Medicine (CDM). From left: Blenda Emptage-Smith, program director, Jackie Robinson Senior Center; former U.S. Representative Charles Rangel; Marie Garcon, assistant professor of nursing; Dennis Mitchell, executive vice president for university life; Christian Stohler, dean of

Columbia University College of Dental Medicine; Mike Hankinson, executive vice president and chief legal officer, Delta Dental California; Biana Roykh, senior associate dean for clinical affairs, Columbia University College of Dental Medicine; George Jenkins, associate dean for access, equity, and inclusion, College of Dental Medicine; and Anil Rustgi, interim executive vice president and dean of the Faculties of Health Sciences and Medicine at Columbia University Vagelos College of Physicians and Surgeons/Columbia University Irving Medical Center. "With the mobile clinic, we're able to conduct exams and facilitate referrals and treatment for the people who need it most and who probably would have difficulty getting to our brick-and-mortar clinics. It's a tremendous tool to allow us to promote oral health and to treat our most vulnerable patients in those areas," says George Jenkins, DMD, MHA, assistant professor of dental medicine and associate dean for access, equity, and inclusion at CDM.

After the ceremonial ribbon cutting, event attendees had the opportunity to explore inside the mobile clinic, which features two dental chairs, X-ray equipment, a reception and health education area, and a wheelchair lift. The facility is designed to serve as an extension of the Center for Precision Dental Medicine, CDM's state-of-the-art teaching clinic.

"The Delta Dental Community Care Foundation and Columbia University College of Dental Medicine share a common mission of providing greater access to oral health care and helping the people and communities we serve lead healthier lives," says Kenzie Ferguson, vice president of foundation and corporate social responsibility for Delta Dental of California. "The Foundation is proud to fund the Mobile Dental Center, which will be particularly beneficial to children and senior adults who are often the most overlooked when it comes to receiving the vital dental care and oral hygiene guidance they most need."

"With the mobile clinic, we're able to conduct exams and facilitate referrals and treatment for the people who need it most. It's a tremendous tool to allow us to promote oral health and to treat our most vulnerable patients."

The new Mobile Dental Center replaces and improves upon the school's previous mobile clinic, now decommissioned. CDM purchased the new vehicle with a grant from the Delta Dental Community Care Foundation; the funds are among more than $70 million that the Foundation has donated since 2011 to projects that advance access to oral health care for disadvantaged children and adults across the United States. The Delta Dental Community Care Foundation is the philanthropic arm of Delta Dental of California.

A bright blue bus emblazoned with photos of smiling children, the new Mobile Dental Center reflects CDM's rejuvenated DentCare program, which runs the mobile clinic and other initiatives to improve access to oral health in the community. CDM faculty, hygienists, and trainees have completed more than 150,000 patient care visits through the DentCare program since its inception in 1996. DentCare suspended most operations in 2020 due to the COVID-19 pandemic and moved to telehealth services for some of the hardest-to-reach populations, such as homebound patients in Northern Manhattan area. This fall the program has begun resuming its wider net services.

In addition to offering care in the mobile clinic, DentCare provides local seniors with health screenings, workshops, and referrals through an initiative called ElderSmile. Several new programs to deliver cross-disciplinary health care to the young and the vulnerable elderly are in development by the DentCare team in collaboration with Columbia's nursing and medical schools, NewYork-Presbyterian's Ambulatory Care Network, and the faith-based organization ArchCare.

To integrate care effectively, CDM has added a new role to the DentCare team: the community dental health coordinator, a position established through a second grant from Delta Dental and in partnership with the New York State Dental Association. The coordinator facilitates connections among patients, providers, community health centers, and other social service agencies to better support patients with a range of health needs; directly performs certain oral health services; and works to strengthen DentCare's relationships with an array of community partners.

"CDM's DentCare program has left an indelible mark on this community over its 25 years of service. The COVID-19 pandemic further illuminated the impact of social determinants of health and the disparities that continue to persist in marginalized communities," says Biana Roykh, DDS, MPH, associate professor of dental medicine and senior associate dean for clinical affairs at CDM. "The new mobile dental center is a testament to Columbia's ongoing and deepened commitment to help bridge this health divide, and we are fortunate to have partnerships that enable us to pursue our mission of service learning, responsiveness to community needs, and scientific scholarship with community-based participation."

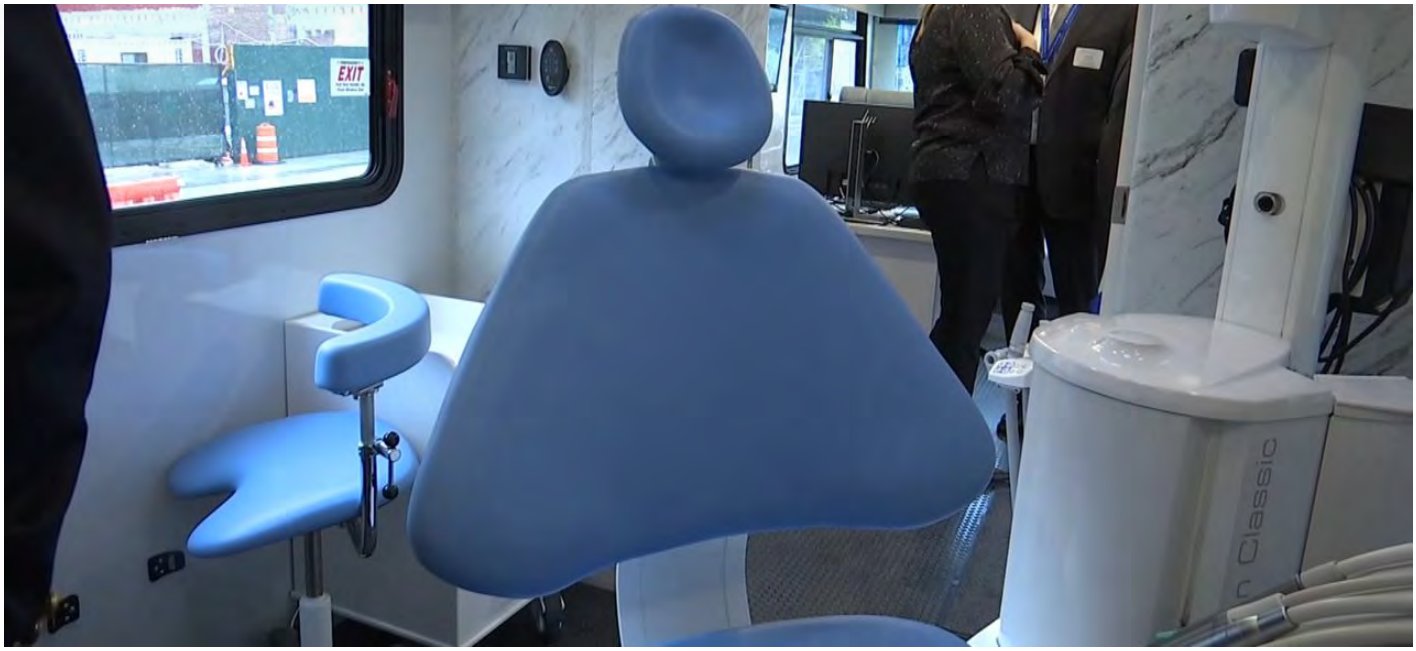
Universidad de Columbia estrena una clínica dental móvil

BY SPECTRUM NOTICIAS NY1 | MANHATTAN
PUBLISHED 6:00 PM ET NOV. 13, 2021

Un bus que provee servicios de salud en el Alto Manhattan le da una razón a los neoyorquinos para sonreír.

La facultad de Medicina Dental de la Universidad de Columbia cortó un listón para estrenar una nueva clínica móvil.

El bus de 35 pies de la largo está equipado con dos sillas médicas para los pacientes, un espacio destinado a la educación sobre la salud dental y equipos de rayos x.



Los asientos son 'sillas inteligentes', capaces de reconocer pacientes y archivar su información médica en carpetas virtuales.

Profesores y estudiantes de la universidad atenderán a los pacientes en la clínica móvil en las afueras de escuelas, centros de adopción y hogares de cuidado para personas mayores en el alto Manhattan y el sur del Bronx.

"Y si necesitas llevara la guagua directamente a la casa d ela genet que necesita más tratamiento y que no puede salir de la casa. entonces es sensilbe y atentitvocon la gente que tiene necesidades más alta de lo normal", explicó el coordinador comunitario de esta iniciativa.

Este nuevo vehículo reemplaza a la antigua clínical móvil de Columbia que la universidad compró en el 2009.
