The cumulative maximum of 18 credits per academic year makes it likely that only one student will be awarded a scholarship annually due to the master’s degree program credit requirements. The recruitment and selection processes continue to be modified going forward. It is anticipated that depending on the program selected by the scholarship recipient and requirements of the specific program selected, there could be a need to adjust the recruitment process annually to meet the need. As an exception, approved by Empire State Development, scholarship recipient #3 was granted a partial scholarship for the 2019-2020 Academic Year to continue her studies at the doctorate level. She was awarded 18 credits for use in Academic Year 2018-2019 but only utilized 9 credits during that time period. As was previously agreed upon, the scholarship was awarded to two new recipients in Academic Year 2019-2020. These same two recipients were selected to continue their scholarships for Academic Year 2020-2021. As per consultation with Empire State Development and in order to meet the program needs of these two recipients, more than 18 credits were awarded for Academic Years 2019-2020 and 2020-2021.

\*Recipient #1 accelerated her matriculation and was able to utilize 36 (two years’ worth) credits in a little less than 18 months. As a result, no new scholarship was awarded in school year 2014-2015.

\*\*Recipient #2 was awarded 18 credits for use in Academic Year 2015-2016. She utilized 10 of these credits and then chose to use other credits she received from having a student teacher in her classroom to cover the remainder of her courses.

Note: Recipient #7 was awarded 12 credits but utilized financial aid in lieu of the scholarship because she was unsure if she could maintain the commitment to teach within CD9 for 5 years.
